Do you have any personal experience (training and/or participation) in any of the following art forms?

Creative Writing

In which arts activities have your children participated in school?

Music, Theatre, Visual Arts

Are you aware that music and visual arts education are required in Arizona K–8 schools under the sections of the Arizona Administrative Code governing education?

Yes

Are you aware that Arizona has approved academic standards for the teaching of arts in K-12 schools?

Yes

Data from the Arizona Education Census, however, indicates that not all schools are providing the required instruction in music and visual arts, and 40% are not using “highly qualified” teachers in those two required areas. As a school board member, will you support and advocate for arts education taught to Arizona state standards in all of your district’s schools for all of your district’s students?

Yes

I absolutely believe that children need a well-rounded education, which includes the arts.

The Every Student Succeeds Act, federal education law that replaced No Child Left Behind, defines arts and music as part of a “well-rounded” education on a par with other core academic subjects like mathematics, science, language... etc., as elements that contribute to overall student learning and performance.

Yes

I absolutely will advocate for the arts!!

As member of the school board, will you support district-level policies that insure that your students are provided a “wellrounded” education including arts and music?

Election 2016 School Board Candidate Survey Gilbert Unified

The Arizona Education census data from 2010 indicates that nearly 80% of Arizona schools spend less than \$1 per student on the materials and resources need to provide quality arts education in our schools.

How will you work to insure adequate dollars are budgeted to provide the tools and materials necessary to support standards-based arts education in the classroom?

Please take this opportunity to provide any additional comments about your views on arts education in our K-12 schools, or any other education issue you consider a priority as you seek a position on your district school board. (250-word limit)

Because of what has happened in Arizona with the funding issues, this will be difficult. I will do my best to find a way to continue to support the arts.

I was an elementary principal for 21 years. I saw what the arts does for children. Music and Art are not one of my strengths, but I have seen what they do for children. I believe in teaching the whole child!

How will you work to insure adequate dollars are budgeted to provide the tools and materials necessary to support standards-based arts education in the classroom?

As more funding is available to our district, funding needs to be allocated to support GPS programs.

Please take this opportunity to provide any additional comments about your views on arts education in our K-12 schools, or any other education issue you consider a priority as you seek a position on your district school board. (250-word limit)

Arts education is very important to a student's education. Not only is it a well rounded education, the arts engages students to learn and it provides opportunities for students to explore their interests or pursue/advance their skills in the arts.
