Election 2016

School Board Candidate Survey

Phoenix Union High School

The Arizona Education census data from 2010 indicates that nearly 80% of Arizona schools spend less than \$1 per student on the materials and resources need to provide quality arts education in our schools.

How will you work to insure adequate dollars are budgeted to provide the tools and materials necessary to support standards-based arts education in the classroom?

Please take this opportunity to provide any additional comments about your views on arts education in our K-12 schools, or any other education issue you consider a priority as you seek a position on your district school board. (250-word limit)

I will ask questions of the individuals who have the answers to whether or not we are providing adequate support in this area. I am friendly with several art teachers and have not heard any complaints from them about lack of supplies but will support adequate support at budget time.

As a retired teacher, I have always been friendly with and supported the arts teachers on my campuses and at other schools. I believe in a strong arts curriculum as I believe it makes for a better rounded person who will perform better academically.

Further, it is my belief that there are social and emotional benefits to students who participate in arts programs. As a member of the legislature I have a longtime commitment to the arts in our schools and in our broader communities.
