Given the value of the nonprofit arts and culture sector to the state, how would you support the eventual restoration of funding for the Arizona Commission on the Arts to pre-recession levels?

■ Another dedicated funding stream. If so, what?: As a State we must work to create new revenue to restore and increase funding to that of before the recession.

To ensure all K-12 students have access to standards-based arts education and the benefits it can have on their academic performance and the overall learning environment, how would you encourage more attention and resources for arts education?

Other ideas?: Our students must have access to the arts. We must work to ensure our students have the educators and resources available to engage them. Every student deserves to receive an arts education.

Please discuss what impact you believe arts and culture has on your local community, e.g. individual artists, nonprofit performing arts, museums of various kinds, zoos or botanical gardens.

The arts and culture give our community an avenue to engage the world. It is a form of expression which can inspire them to build community.

Please describe your personal participation and/or interest in arts and culture, e.g. professional or amateur visual or performing artist, a patron, board service, financial support, participation by your children, etc.

I have supported local community talent groups in their development of community plays. As my two-year old son grows I would like him to attend art based classes at our local community centers.

Below are the Legislative District 30 candidates from whom Arizona Citizens for the Arts did not receive responses to our survey, along with their contact information.
