Which of the following art forms do you have personal experience (training and/or participation) in?
(Check all that apply)

	Instrumental Music
✓	Vocal Music
	Visual Arts
✓	Dance
	Theatre
	Photography
✓	Creative Writing
	Film

In which arts activities have your children participated in school? (Check all that apply)

	Music
	Theatre
	Visual Arts
	Dance
✓	I have no children.
	Other (please specify)

Until 2017, the Arizona Administrative Code required the teaching of music and visual arts in Arizona K-8 schools. Current policy now requires schools offer two of five artistic disciplines (music, theatre, dance, visual arts and media arts). According to the 2018 Arizona Arts Data Project (based on 2015-16 enrollment), under the previous requirement, only 65 percent of Arizona K-8 students had access to music and arts.

As a school board member, would you support a district policy that requires that all K-8 students in your district have access to at least two of the five disciplines, per the new state administrative code?

Yes

As a CUSD alum, I depended on exploration in the arts to boost my self-esteem, connect with like-minded students, emotional regulation and identity formulation. Participation in the arts is one of the contributing factors to my academic success. It is the best mindfulness tool and I have seen the arts work wonders with different groups of children from different walks of life.

As member of the school board, will you support district-level policies that insure your district schools properly report all data to the Arizona Department of Education about arts education course offerings and student enrollment so that equity and access to arts education can be evaluated and parents are aware of whether their children are receiving a quality arts education?

Yes

I believe transparency is the best policy as it holds us accountable. It also helps us to see where we can improve and where we are successful.

Would you support a comprehensive district-wide assessment of the degree to which arts education is being offered in your schools, including enrollment, instructional minutes, teacher qualifications, resources and materials, and adequacy of student assessments?

Yes

I would certainly be on board as I would like to see all students have access to a quality education which includes exploration of the arts.

If elected, will you promote a policy of including arts education stakeholders in the annual required district needs assessment with arts educators appropriately represented on planning teams, etc.?

Yes

Yes I would. We need everyone at the table and arts education has been excluded for too long as success has been narrowly defined for our students. I would want to make sure we have input from our stakeholders to see how we can improve.

The state A-F Report card for K-8 schools does not currently give a school ANY credit for student achievement in arts education because students often are not evaluated by grades, or “satisfactory” or “unsatisfactory” measurements. If valid assessments existed, the State Board of Education likely would give credit for student achievement in arts, thereby creating a greater incentive for quality arts education.

As a member of the school board will you promote the adoption of a process to develop valid student assessments of achievement in arts education, based on the Arizona Arts Education Standards?

Yes

I believe measures of achievement and success should also include the arts as some of our students are going to better express themselves and showcase their abilities through artistic expression.

Currently, the 9-12 A-F school report card only gives credit for student achievement in AP Arts Classes (as part of the College and Career Ready point formula). However, Arizona’s arts standards are sequential with increasing conceptual learning and proficiency to either the junior or senior level. Would you advocate the expansion of the College and Career Ready point formula to include credit for successful completion of study in an arts discipline (e.g., visual arts, theatre, music) to the senior level as is done for other academic and CTE courses?

Yes

I strongly support this as we have to legitimize success in the arts.

Arts Education advocates are working to develop a Fine Arts Seal -- similar to the Civics and Biliteracy Seals-- to be affixed to the diplomas and noted in transcripts of graduating students with advanced achievement in high school Fine Arts.

If the state adopts the Fine Arts Seal, will you support the adoption of the seal in your school district?

Yes

I firmly believe that the definition of success and achievement need to be broadened. And we need to encourage students to explore success in artistic expression.

Please take this opportunity to provide any additional comments about your views on arts education in our K-12 schools, or any other education issue you consider a priority as you seek a position on your district school board.

As a clinical therapist, I have seen the difference participation in the arts has made in the populations I've served. Art is a valid intervention as it connects with kids who are looking for different ways to express themselves. I believe the arts are needed in our schools and could be beneficial in creating more mindful and resilient schools.
